TECHNICAL SKILLS

HTML, CSS, JavaScript
React.js / Express.js / Node.js
MongoDB, SQL
Figma

EDUCATION AND TRAINING

Junior Software Developer Bootcamp Cohort 3
Generation Thailand
Sep - Dec, 2022

Master of Engineering (Chemical Engineering)
King Mongkut's Institute of Technology Ladkrabang
June 2005 - July 2007

Bachelor of Science (Materials Science)
Chiang Mai University
May 1998 - October 2022

INTERESTS

Cycling, Photography,
Self-improvement

PERSONAL STATEMENT

With a background in Chemical Engineering and diverse experiences in management, research, and online evaluation, I recently participated in the Junior Software Developer Bootcamp Cohort 3 by Generation Thailand. Through this program, I gained hands-on experience in developing web applications using the MERN stack with an agile approach and worked under the guidance of senior software developers and tech industry mentors. Driven to learn new technical skills and open to receiving feedback to improve my work performance, I am seeking an opportunity as a junior software developer. I understand that I am still a work in progress, but am eager to continue learning and growing in this field.

EXPERIENCE

Final group project: _EliteMove_ (Sports tracking application with MERN stack)

- Front-end using React.js for UI, React-router-dom for routing, and Axios for HTTP client request handling
- Back-end using Node.js and Express.js for managing API and token-based authentication, and Mongoose for dealing with MongoDB database

Appen Ltd. (2018 - Present) Independent Contributor
Social Media Evaluator / Search Engine Evaluator

- Evaluated social media content and search engine results to enhance user experience and satisfaction, improving the accuracy of machine learning and artificial intelligence products for social media and search engine platforms

Fun-D Hostel Co., Ltd. (2013 - 2014)
Manager

- Boosted reputation as the premier hostel in Chiang Rai within the first six months of operation, as evidenced by positive customer reviews on a renowned travel website, and established a capable customer service team

National Science and Technology Development Agency (2007 - 2008)
Assistant Researcher

- Conducted a successful pilot study of polymer processing for solar panel encapsulation and performed large-scale experiments on-site, also providing technical reports, documents, and presentations for stakeholders

Oral Presentation Award
17th National Chemical Engineering and Applied Chemistry Conference Chiang Mai (2007)
